Per the program description, the facility noted above requests an initial audit based on the category selected below. (Category AA certification includes all other listed categories. Category AB includes categories AC, AD, and AT. Category AC includes categories AD and AT.) Please note that an additional annual fee is required for the project evaluation requirements (AA) and project survey requirements (AA and AB).

- ARCHITECTURAL CERTIFICATION CATEGORY **AA** (Producer acknowledges additional annual fees to maintain certification.)
- ARCHITECTURAL CERTIFICATION CATEGORY **AB** (Producer acknowledges additional annual fees to maintain certification.)
- ARCHITECTURAL CERTIFICATION CATEGORY **AC** (standard PCI fees)
- ARCHITECTURAL CERTIFICATION CATEGORY **AD** (standard PCI fees)
- ARCHITECTURAL CERTIFICATION CATEGORY **AT** (standard PCI fees)

Certification in the architectural group requires construction of three mock-up panels to demonstrate the proficiencies needed for the desired category. Two of the panels can be produced before the audit. The third mock-up panel must be produced (cast, stripped, and finished) during an audit. Please indicate the range of dates during which these mock-up panels will be ready for evaluation.

EARLY AUDIT DATE

LATE AUDIT DATE

Submission of mock-up panel drawings and concrete mixture proportions required per the desired certification category must be submitted and approved in advance of the certification audit. (Please allow 45 days for the submittal review period.)

If the facility will require an additional audit day because it cannot place, strip, and finish the production mock-up panel during the usual two-day audit period, this must be indicated below.

- YES, A THIRD AUDIT DAY WILL BE REQUIRED. (The facility understands an additional audit day will be required, and that an additional fee will apply.)
- NO, A THIRD AUDIT DAY SHOULD NOT BE REQUIRED.

If the audit results are not successful, the producer agrees additional audits and fees may be required.
