## **For Immediate Release**

### **Precast/Prestressed Concrete Institute Announces 2021 PCI Design Awards Winners**

CHICAGO, January 26, 2021 – A luxury multi-family community, major league baseball stadium, and world-famous causeway highlight the Precast/Prestressed Concrete Institute's 2021 PCI Design Awards which were announced recently. Judges awarded 26 projects and 12 honorable mentions for design excellence in building and transportation categories.

"Once again, the precast concrete industry has put its best foot forward and has delivered many inspiring and impressive projects," said PCI President and CEO Bob Risser, P.E. "Each year, the PCI Design Awards program demonstrates that precast concrete is not only a practical solution to many construction challenges, but also a head-turning aesthetic solution."

The PCI Design Awards have showcased and recognized the creative and innovative use of precast concrete for the past 58 years. A panel of industry experts that includes engineers, architects, and precast concrete producers judges all nominees. The buildings and transportation categories are judged on aesthetic, structural, and use versatility; site, energy and operational efficiency, and risk reduction; and resiliency, such as structure durability, multi-hazard protection, and life safety and health.

Several projects are also honored with special awards. These are judged on similar criteria to the building and transportation projects, as well as additional requirements, including industry advancement, sustainable design, technology, and designs using all-precast concrete solutions. These awards include the Harry H. Edwards Industry Advancement Award, the Building Information Modeling (BIM) Award, the Sustainable Design Award, and the All-Precast Concrete Solution Award.

All winning projects will be showcased and honored at the 2021 PCI Convention in New Orleans, Louisiana, with an event on May 21. They also will be highlighted in PCI publications, including *PCI Journal*, *Ascent*, and *ASPIRE* magazines. Visit [pci.org](http://pci.org) for details and photos of all winning and honorable mention projects.

Photos of all projects are available by emailing [tbagsarian@pci.org](mailto:tbagsarian@pci.org).

**2021 PCI Design Awards Winning Projects – Specials**

**Harry H. Edwards Industry Advancement Award and  
Building Information Modeling (BIM) Award**

Juno Winter Park  
Winter Park, Fla.  
Finrock

**Sustainable Design Award**

County Administration South – Building 16  
Santa Ana, Calif.  
Willis Construction Inc.

**All-Precast Concrete Solution Award**

Escondido Village Graduate Residences  
Palo Alto, Calif.  
Clark Pacific

***Special Awards Jury:***

*Marvin Hartsfield, Hartsfield & Associates*

*Kyle Knop, HGA Architecture*

*Robert Konoske, retired 46-year industry veteran*

**2021 PCI Design Awards Winning Projects – Buildings**

**Data Center**

DC Blox  
Birmingham, Ala.  
Gate Precast Company

**Government and Public**

FDNY Firehouse Rescue #2  
Brooklyn, N.Y.  
High Concrete Group

**Healthcare/Medical**

Texas Health Frisco - New Bed Tower  
Frisco, Texas  
Gate Precast Company

**Higher Education/University**

Boston College Recreation Center  
Chestnut Hill, Mass.  
Unistress Corp.

**Hotel and Motel**

The Peyton House and Ocean House, Ponte Vedra Inn & Club  
Ponte Vedra Beach, Fla.  
Gate Precast Company

**Mixed Use**

One South First  
Brooklyn, N.Y.  
Gate Precast Company

**Multi-Family (co-winners)**

Clybourn 1200  
Chicago, Ill.  
ATMI Precast

Escondido Village Graduate Residences  
Palo Alto, Calif.  
Clark Pacific

**Office Building**

Peabody Plaza  
Nashville, Tenn.  
Gate Precast Company

**All-Precast Concrete Parking Structure**

Penn State Hershey Medical Center Parking Garage  
Hershey, Pa.  
High Concrete Group

**Façade Only Parking Structure**

University of Alabama Parking Deck  
Tuscaloosa, Ala.  
Gate Precast Company

**Hybrid Parking Structure**

Sound Transit E360 Guideway Bridge  
Bellevue, Wash.  
Concrete Technology Corporation

**Special Solution**

Port of Corpus Christi North Bank Cargo Dock 16  
Corpus Christi, Texas  
Heldenfels Enterprises Inc.

***Transportation Jury***

*Reggie Holt, FHWA*

*Bijan Khaleghi, Washington State DOT*

*Glenn Myers, Atkins*

**About PCI**

*Founded in 1954, The Precast/Prestressed Concrete Institute (PCI) is a technical institute for the precast concrete structures and systems industry. PCI develops maintains, and disseminates the Body of Knowledge for the design, fabrication, and construction of precast concrete structures and systems. PCI develops consensus base standards, industry handbooks, quality assurance programs, certification, research and development projects, design manuals, continuing education and periodical publications. PCI members include precast concrete producers, erectors, suppliers, professional engineers and architects, educators, students, and industry consultants who complement the wide range of knowledge of precast concrete. For more additional information, visit [pci.org](http://pci.org).*
