PCI Adds Association Veteran to Certification Staff

CHICAGO, May 12, 2022 – The Precast/Prestressed Concrete Institute (PCI) has hired Noel Morales as its new Certification Coordinator. In the new position, Morales will support PCI’s plant, personnel, and erector certification programs.

He will be the primary contact on the personnel certification helpline, handling inquiries from certified personnel and prospective certification candidates about program requirements and related processes. He will also administer the architectural project survey and site evaluation systems for the plant certification program as these are implemented over the coming months.

Morales previously worked for the American Marketing Association for more than 25 years in its membership, professional development, continuing education and certification departments. He also traveled and worked on the association’s national conferences.

“I am overjoyed to be part of the PCI family and to be an added piece to its success,” he said.

About PCI

Founded in 1954, The Precast/Prestressed Concrete Institute (PCI) is a technical institute for the precast concrete structures and systems industry. PCI develops maintains, and disseminates the Body of Knowledge for the design, fabrication, and construction of precast concrete structures and systems. PCI develops consensus base standards, industry handbooks, quality assurance programs, certification, research and development projects, design manuals, continuing education and periodical publications. PCI members include precast concrete producers, erectors, suppliers, professional engineers and architects, educators, students, and

industry consultants who complement the wide range of knowledge of precast concrete. For more additional information, visit pci.org/howprecastbuilds.
