

## **Metromont Promotes Suzanne Aultman to VP of Engineering**

Greenville, S.C. -- [Metromont Corporation](#) is pleased to announce that Suzanne Aultman has been promoted from Technical Manager to Vice President of Engineering for our Corporate Engineering department in Greenville, S.C. Suzanne has been with Metromont for 18 years, quickly making her mark as a trusted source for all things engineering and a mentor for young engineers. Suzanne is heavily involved in ACI and PCI and standards development, and most recently, she was recognized as Engineer of the Year for the Piedmont Chapter of the South Carolina Society of Professional Engineers for the year 2021.

With headquarters in Greenville, S.C., and six manufacturing facilities across four states, Metromont Corporation is the leading producer of structural and architectural precast on the east coast. For 85 years, Metromont has been a pioneer and innovator in the precast industry, providing unmatched precast solutions for the parking structure, multifamily/student housing, data center, office/commercial, industrial, and mixed-use markets.
