

IN THE NEWS

New ACI/PTI code 320-25 on post-tensioned concrete available now as PDF

The Post-Tensioning Institute (PTI) and American Concrete Institute (ACI) have released ACI/PTI Code-320-25, *Post-Tensioned Structural Concrete—Code Requirements and Commentary* in digital format.

This new joint committee code sets forth the minimum requirements for the design, materials, and detailing of post-tensioned concrete structures.

Now available as a PDF through the PTI bookstore, the code aims to improve safety, efficiency, and durability in structural concrete. A print version is planned to be released in the future. Visit the PTI bookstore at <https://www.post-tensioning.org/store.aspx> to purchase the PDF.
